Zen KOH is the Co-Founder and Global CEO of Fourier Intelligence Group.

Under his leadership, Fourier has successfully raised approximately USD100 million in Series C and D rounds from renowned investors such as Saudi Aramco Prosperity7 Venture and SoftBank Vision Fund.

He is also the Founder and Executive Director of Swiss-based MotusAcademy and the current incoming president of the International Industry Society of Advanced Rehabilitation Technology (IISART).

Zen has more than 20 years of experience in providing leadership and management for organisations that provide medical devices, healthcare solutions, and services for people with disabilities and neurorehabilitation.

In 2012, he was nominated by MD+DI amongst the 40 under the 40s, the future most influential industry leaders in MedTech, recognising his contribution to developing novel technologies and leading companies that will transform the future healthcare system.

Previously a research fellow at the National University of Singapore, he is now a pioneer and is well-recognised for his contributions and dedication to advancing MedTech and Robotics for Rehabilitation.
